

# Gerardo Gándara

Motivated, knowledgeable and customer focused Full Stack Web Developer with over 2 years working as an order administrator providing support to eight of the top airlines in North and South America responding to all types of customer inquiries and ensuring all needs are met in a timely and effective manner.

## Professional Experience

### SMU Full Stack Coding Bootcamp – Student

March 2020 – September 2020

- Developed multiple full stack mobile responsive applications using Javascript, React and several different libraries and frameworks.

#### Projects:

##### Chief System

- MongoDB, Express, React, Node (MERN) and Material-UI application where small business owners can manage their inventory.

##### Guess The Quote 2.0

- Node, Express, MySQL and Bootstrap application where you have to guess who was the author of the quote.

##### Amazon Clone

- Replica of Amazon website developed with React. Users can create an account and add merchandise to their basket.

### Order Administrator – RECARO Aircraft Seating

October 2018 – Present

- Communicate effectively and regularly with customers via email, phone and EDI systems.
- Manage and track all open orders in SAP until each customers PO is completed and closed.
- Ensured consistent on-time delivery performance of spare parts per customer requirements meeting all RECARO's standard quality requirements.

### Software Developer Intern – If-Idea

January 2021 – July 2021

- Implemented websites from concept through deployment and standardized all output with a mobile responsive first approach and strategy.
- Worked on building new React components for the web app utilizing Material-UI framework.
- Played a key role in the implementation of React-Admin front end framework.

### Marketing/Events Coordinator – RLR Sports

October 2016 – August 2017

### Bilingual Stats and Info Intern – ESPN

June 2016 – August 2016

- Research, write and edit content for the Bottom line on four ESPN International and Domestic Spanish-language networks.
